Dear Sisters, Brothers, and Children in Jesus Christ,

What is the change that happened to the apostles after the Pentecost event? In the opinion of those who listened to them, they began to understand in their own language what the apostles were speaking to them. The apostles who were all Galileans spoke in their language, but people who had gathered from all over the world for the feast, were all able to understand the apostles. So the first change that will happen to you when the Spirit of the Lord comes upon you is that your language will be understood by all people around you. What you communicate is understood not because of your rich vocabulary or your high intelligence, but because the Spirit operates in you.

Secondly, the people thought that the apostles looked like those who drank fresh wine. Till yesterday, they were just living their ordinary lives. But today, there is new froth and flavor added to their lives. The fresh wine stands for unconditional love. Once you taste it, your life is no more going to be the same. In other words, the anointing by the Spirit is nothing but the realization of loving and being loved. It is a moment of attestation by your God over your life.

The two symbols that happen at Pentecost are the strong driving wind and the flames of fire. It just tells us that the Spirit is something that moves you and keeps you dynamic. Once you are caught up with it, you cannot be stationary or stagnant anymore. It is simultaneously also that which is luminous and radiant through you and it penetrates those who are around you. Let us pray that God's spirit may continually abide in us.

Yours in Christ Jesus,
Fr. C. P. Varghese
Pastor
